

# How No Shortage of Work Works

**No Shortage of Work is all about Teaching, Mentoring, Collaborating  
And finding Meaningful Work  
even when there is not enough money to pay for tuition or salaries**

**An NSoW Party** is an event where people who are willing to teach can meet people who want to learn and where people who need help can find helpful people.

**NSoW is not a place for jerks** who want to pick up members of the opposite sex (or the same sex), get stupid drunk, or brag endlessly about themselves in the hopes that someone will give them a job just to shut them up.

When you arrive, you will be asked to hand in this form and pick up a name badge and stickers.

**Think about how someone might help you.** Do you have a project, are you writing an article, do you need to interview someone, could you use an expert? Do you know anyone else who could use help? Do you or someone you know need to hire someone full-time or part time? If so, then get a **HELP WANTED** sticker and wear it.

**Think about how you might be of help.** Can you write a program, design a web site, edit an article, consult on a project? Is there anything you can do, and are willing to do? Is there something you can't do, but want to learn on the job for a patient person? If so, get a **HELP OFFERED** sticker and wear it.

**Think if there is anything someone can learn from you.** Can you show the ropes to a newbie, teach how to do something, help someone hone their skills, or ease someone into an industry? If so, get a **MENTOR/TEACHER** sticker and wear it.

**Think about how you will behave.** If you can't behave yourself, get a **JERK** sticker and wear it. We probably won't throw you out, but people should be able to see you coming. If someone acts like a jerk, get one of these stickers and give it to them.

Print this out, fill it in, and bring it with you.
